MATERIAL Manufactured from flexible HDPE (High Density Polyethylene) with steel armor

SPECIFICATIONS Steel armor is coated with a corrosion-resistant copolymer

**CONDUIT MARKINGS** Permanent marking along conduit includes: material, relevant standards, production info, and sequential feet or meter markings. Custom options available.

### **OPTIONS**

PRE-INSTALLED TAPE Factory pre-installed Bull-Line™ Pull Tape with EVEN-LOAD™ ensures extra slack at any access point throughout the reel. Available 500lb-6,000lb tensile strength or locatable.

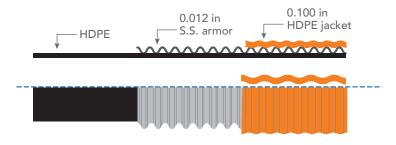

CO-EXTRUDED LINING SILICORE® ULF (Ultra-Low Friction) is co-extruded inside the HDPE wall creating a slick, permanent, interior lining. With a coefficient of friction 60% lower than standard HDPE conduit without the aid of wet lubricants, SILICORE® ULF exhibits no loss in performance over time or in extreme temperature conditions.

INTERNAL RIBS Internal ribs available upon request

**UV PROTECTANT** Available for UV exposure applications (Aerial, Lashed, or External Tray)
